bhubanmagar79@gmail.com | [Portfolio](#) | [Github](#) | [Linkedin](#)

I'm a passionate MERN stack developer who loves turning ideas into responsive, user-friendly web applications. With a solid grasp of MongoDB, Express.js, React.js, and Node.js, I enjoy building clean, efficient code and learning through real-world challenges. As a fresher, I'm excited to grow, collaborate, and make a meaningful impact through technology.

Experience

Frontend Developer, [Webx Nepal](#) – Kathmandu Jan 2025 – Present

- Developed responsive web applications using Next.js, incorporating advanced animations with libraries like Framer Motion, GSAP.
- Collaborated closely with backend developers and UX/UI designers to translate wireframes and API responses into functional components.
- Collaborated in an Agile team environment, participating in sprint planning and daily stand-ups.
- Implemented server-side rendering using Next.js, enhancing SEO capabilities and reducing client-side rendering.

Projects

Futsal Booking App | React, Tailwind CSS [Live Link](#)

- Developed an intuitive and responsive user interface using **React** and **Tailwind CSS**.
- Integrated **RESTful APIs** to handle user authentication, venue details, booking management, and payment processing.
- Implemented dynamic routing to handle user-specific content based on authentication status.
- Used **Tailwind CSS** to build a fully responsive layout that adapts to various screen sizes.

Movie Streaming | Next.js, Tailwind CSS [Live Link](#)

- Designed and implemented a responsive UI for a movie streaming platform using **Next.js** and **Tailwind CSS**, ensuring seamless user experience across devices.
- Implemented a robust **search functionality** to allow users to find movies efficiently.
- Implemented a **dynamic movie rendering feature** that fetched and displayed movie data in real-time with optimized **client-side rendering (CSR)** for improved interactivity.
- **Integrated third-party APIs** to fetch dynamic movie data, allowing real-time updates for the movie library.

Skills

Technical Skills :HTML & CSS, JavaScript, React, NextJS, Node.js, Express.js, PostgreSQL, Bootstrap & Tailwind, Git & GitHub.

Education

Asian School of Management and Technology– Bachelor in Computer Science and Information Technology. 2025

Certificates

React

- [Certificate verification - dynoAcademy](#)

Backend development with NodeJS, Express & MongoDB

- [Certification Verification](#)
